

MOVEABLE GLASS WALL MOVEABLE GLASS WALL MOVEABLE GLASS WALL MOVEABLE GLASS WALL

A single track sliding door capable of turning corners.

NAVIGABLE CORNERS SINGLE TRACK SLIDER FLUSH-CLOSE FRAMES UNIQUE DESIGN

## engineering excellence

- This slide-and-stack system of modular thermally broken aluminium panels is unique to Sunparadise. The individual doors are designed to slide easily around corners of any angle between 90° and 180° into a remote stacking area.

### Product info for M60 MOVEABLE GLASS WALL

**construction:** thermally broken aluminium

**insulation:**  $U_w$  value of 1.8 ( $W = 1.8k/m^2$ )

**glazing:** toughened or laminated, double or triple glazed Low-E units, all glass types up to 42mm thick possible. In-glazed blinds available

**frame finish:** a wide range of colours with the option of different colours inside and out

**ironmongery:** black, white, grey or satin finish

**panel width:** max 1500mm

**panel height:** max 2800mm

**panel thickness:** 60mm

**maximum weight:** 70kg

**security:** 3 point locking system with high security euro cylinder locks

The Monoslide60 used simply and effectively to create an impressive open corner. Discreet parallel tracks provide remote stacking.

Clever engineering allows panels to move freely through corners.

## innovation in glass

This exceptional system offers endless options for opening and configuration. Monoslide60 panels run on a single track with the benefit of flush-close frames and can navigate around multiple corners before parking remotely. The individual door leaves can stack internally behind a hinged door, a fixed panel or wall, or discretely into a recess. High grade interlocking seals ensure excellent weather rating and flush tracks are a standard feature.

This distinctive system can incorporate integrated tilt and turn doors or windows within a sliding panel providing easy access and/or ventilation solutions. In most applications and due to its design, the entire system can be secured with one locking shoot-bolt handle allowing expeditious operation. Coupled with the option of no visible external ironmongery, the Monoslide60 is a streamlined contemporary choice.
